ANNUAL TP ICAP CONFERENCE 2023

Marco Ciscato

Founder and Chairman

He graduated in Software Engineering at University of Bologna and started his career as software engineer at DS Data Systems. During the first phase of Maps he worked in the technical area. After obtaining a Master in Business Administration at CUOA in Vicenza, at first he moved from the technical area to strategic customer management and then to internal organization, finance & control and strategic development.

Gian Luca Cattani

R&D Director

Degree in Mathematics cum laude at the University of Parma; MSc and PhD in Computer Science at the University of Aarhus (Denmark); Master in Technology and Innovation Management at the Bologna Business School of the University of Bologna. He was a researcher in Logic and Semantics of Computation at the University of Cambridge (UK). He is the author of several scientific publications in Theoretical Computer Science. For twenty years he has been involved in software development Bespoke solution for complex organizations. In MAPS since 2008, he was appointed R&D Director in 2017.

What we are

The Challenge:

The challenge for Maps is extracting business value from data

What we do:

We develop data-driven products that help our customers to take better decisions and redesign their business models

Scalability:

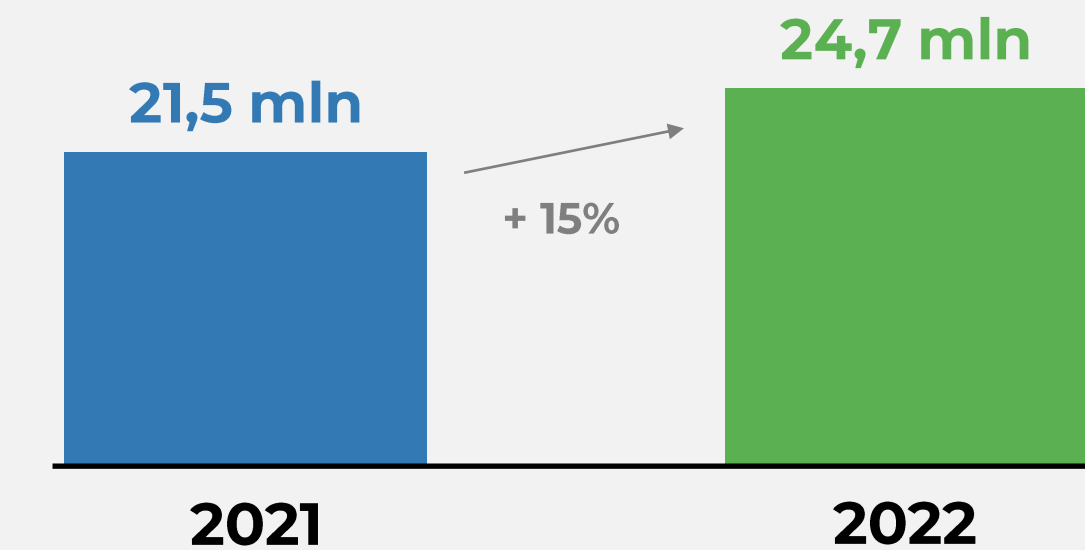

Our strategy is to deploy each of our Proprietary Products to many customers

Focus:

In the Digital Transformation Market, we are focusing on healthcare, energy and ESG

TOTAL REVENUES

REVENUE COMPOSITION

The main markets in which we operate

Healthcare

Energy

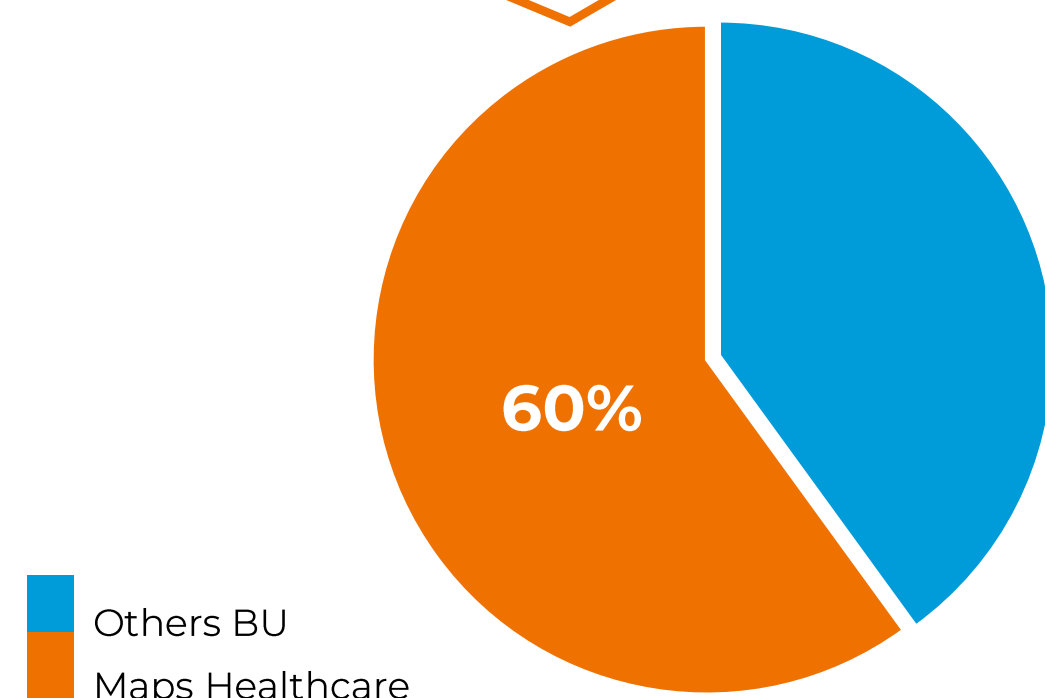

ESG

What we do

Maps Healthcare is the heart of our Group. Despite its maturity, **future revenue growth** is **expected** due to the innovativeness of our products

2022 Total Revenues

With Maps Healthcare we provide **products** to **address** new disruptive **digital trends**, which have not been fully exploited yet

Our mission is to deliver **patient-centered products** to hospitals, outpatient care facilities and local health authorities in order to enhance the Healthcare System

We accompany healthcare organizations on their path of **digital transformation** towards '**connected care**' models

Highlights

5 Regional authorities

110 Private companies

420 Local Public Health Structures

80 Analysis laboratories

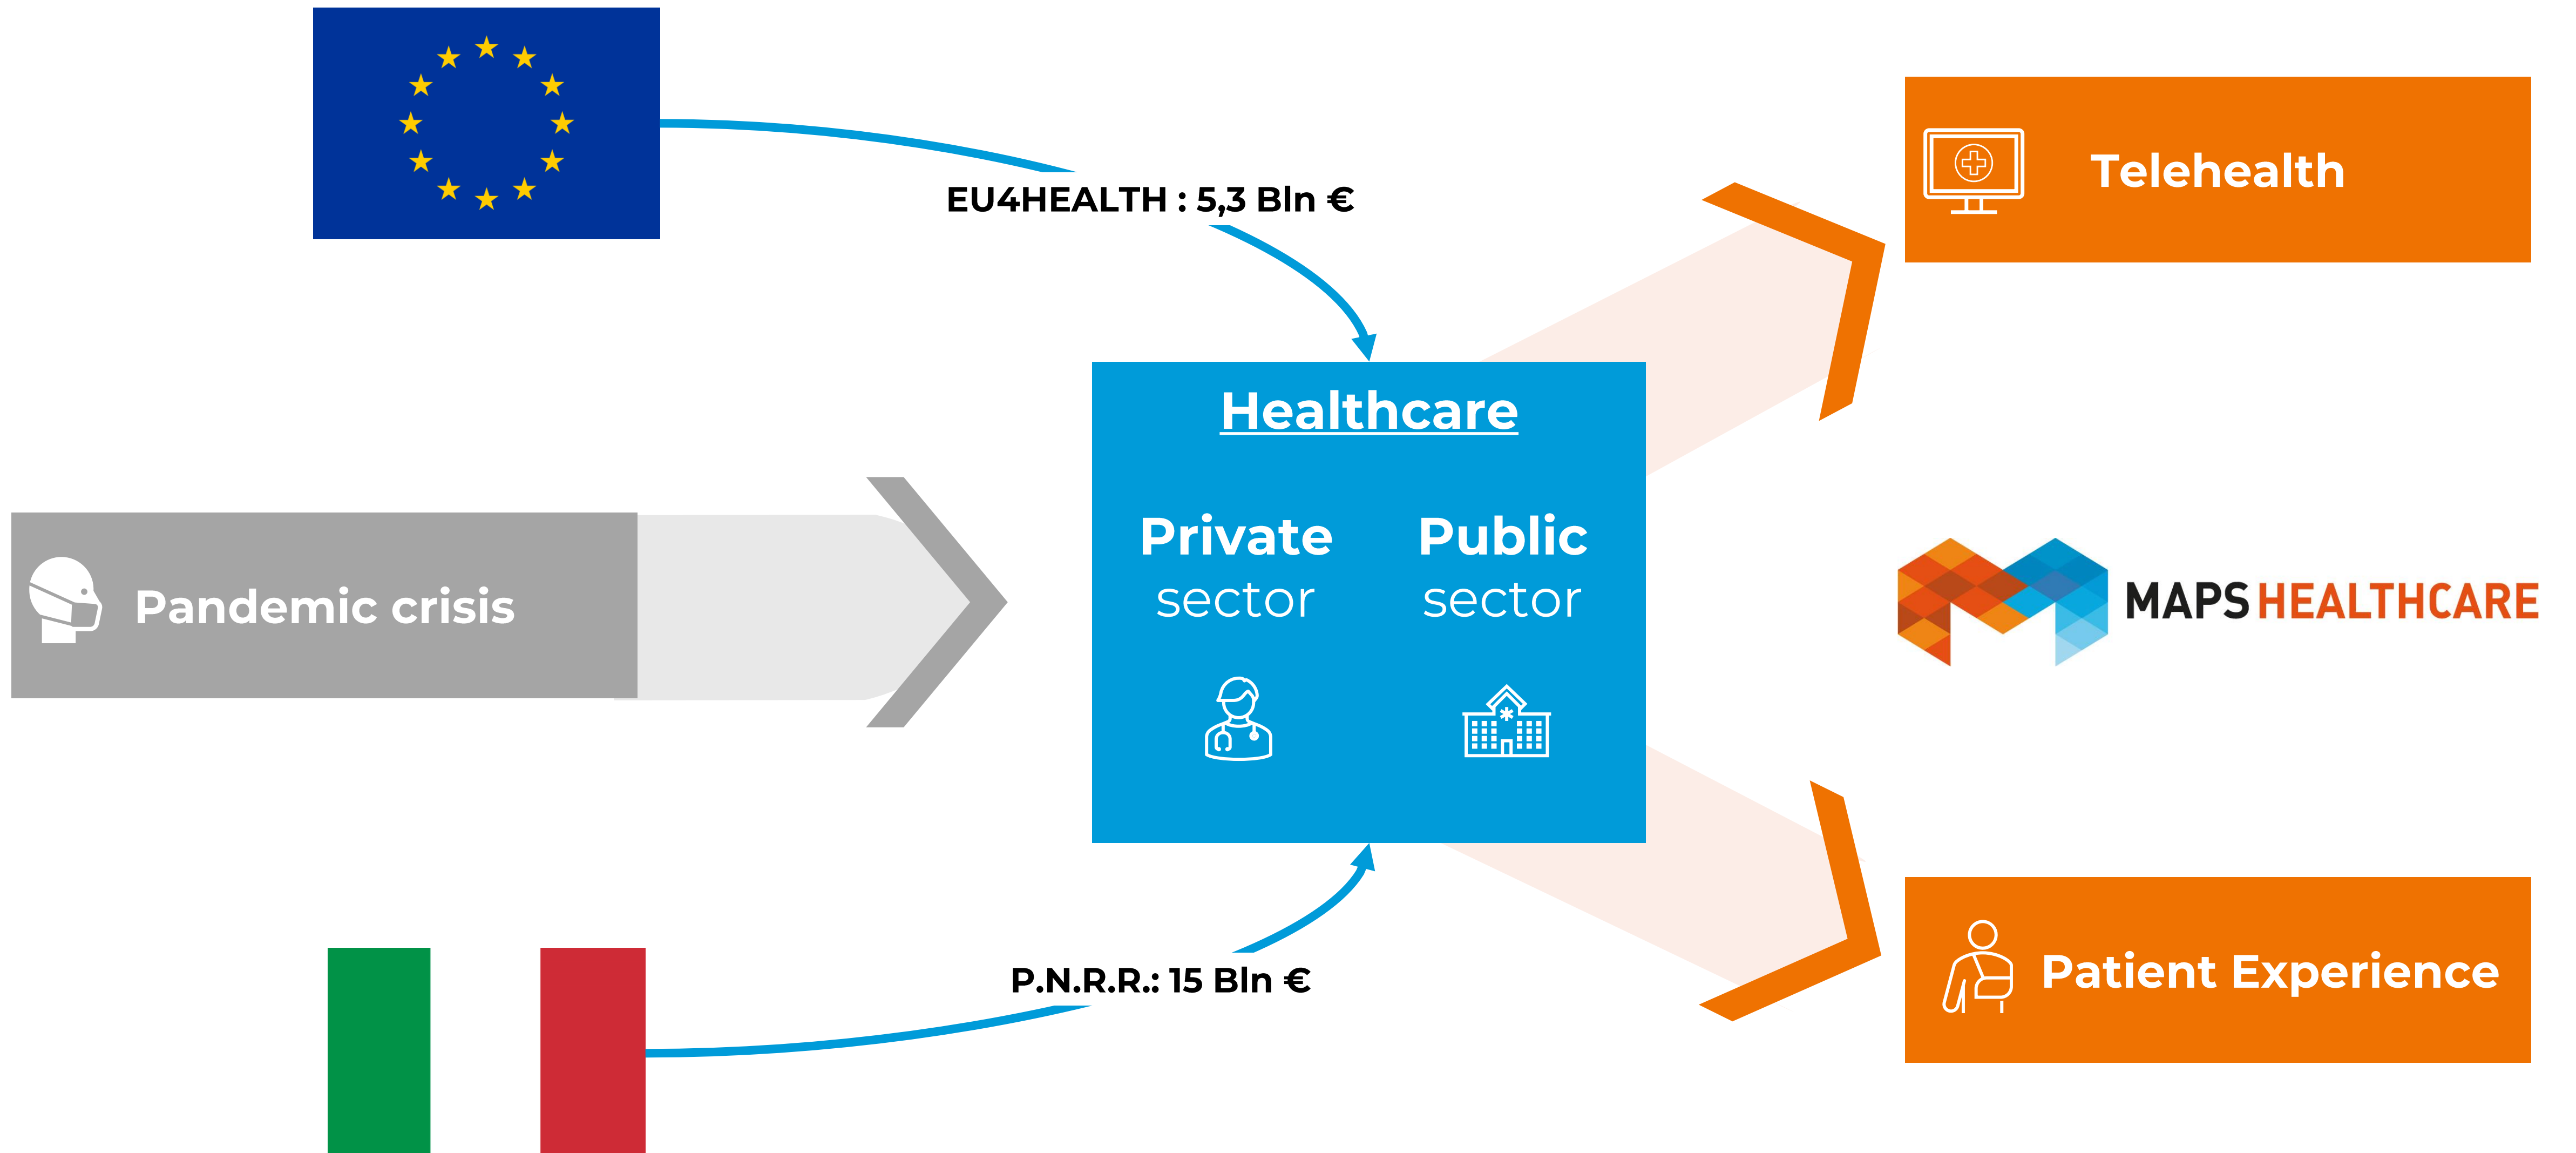

15 Bilions Euros provided by PNRR to the digitalization of the Italian healthcare system

Collaboration with leading research centres for the dissemination of Digitalisation and Data Care

New Healthcare needs

Our Healthcare offer

Patient Journey

For omnichannel and multi-channel communication at each stage of the patient care pathway

Data Driven Governance

To make strategic and operational decisions based on data

Telehealth

To remotely assist and monitor patients

Diagnostic Information System

To digitalise diagnostic and radiology workflows

Hospital Information System

To manage the processes of visits, day hospital and patient hospitalization

A-Care

To ensure business continuity of platforms

Example of our Healthcare products – ZeroCoda and MR-You

A **suite of apps** both mobile and web, kiosks, and digital signage to **seamlessly streamline access to healthcare services**

- **40+ million patients** access every year healthcare services using ZeroCoda and MrYou
- **580,000+ waiting hours saved** in accessing healthcare services

Che cos'è il triage?

Gli utenti che accedono in **Pronto Soccorso** vengono accolti da un infermiere specificamente addestrato che raccoglie i dati anagrafici e valuta la **complessità del quadro clinico**. Tale procedura è detta **Triage**.

Il Triage non serve a ridurre i tempi di attesa bensì a garantire che i pazienti più gravi ricevano subito le cure sanitarie

EMERGENZA In relazione alla gravità del caso l'infermiere assegna un **codice** contraddistinto da un **colore**, che determina la **priorità di accesso alle prestazioni e attribuisce un numero per la chiamata**, nel rispetto della privacy.

URGENZA PRIMARIA

URGENZA SECONDARIA

NON URGENZA

Il termine francese "triage" risponde ad un principio fondamentale:
"i casi più urgenti sono sempre trattati per primi"

**Percentage of Appropriate Referral Requests
Measurements Taken Independently by a Customer LHA (AUSL)**

A configurable Electronic Health Record system for Hospital Departments specifically designed for managing the patient care process

- 30,000+ Healthcare professionals use SISWeb

The collage displays several key features of the Iasi SISWeb system:

- Main Dashboard:** Shows a table of exams with columns for selection, code, and quantity. Exams listed include ECOCOLOR DOPPLER ARTERIE RENALI, ECOCOLOR DOPPLER DEI TRONCHI SOVRAORTICI O EPIAORTICI O CAROTIDEO, ECOGRAFIA ADDOME COMPLETO, ECOGRAFIA MUSCLOTENDINEA, ECOGRAFIA PELVICA, and ECOGRAFIA TIROIDE-PARATIROIDI.
- Patient Record:** Displays a patient's medical history, including a chest X-ray image.
- Documents List:** A sidebar showing a list of documents, including referrals and radiology reports.
- Laboratory Results:** A detailed view of laboratory results from the Istituto Neurotraumatologico Italiano, showing various chemical and clinical tests.
- Patient Dossier:** A comprehensive view of a patient's dossier, including a pie chart and a list of associated medical professionals.
- Public Portal:** A user-friendly interface for patients to access services, including a section for COVID-19 vaccinations and a list of available services.

A **product** for end-to-end efficient and error-free **management of laboratory test services**

Example of our Healthcare products – Salute a Casa

“Salute a Casa” is a **complete telehealth platform** for **enrolment, patient care, planning, tracking** and **transmission of data** in digital format

With Maps Energy we provide products to address:

- **Energy efficiency optimization** (monitoring – saving – diagnostic)
- Optimal **Management of Energy Communities** (management – engagement – feasibility study)
- **Predictive maintenance** of energy systems

Maps Energy is expected to **increase** its **revenues**, according to the expected growth of this market

2022 Total Revenues

**Energy
Community
Markets**

Our Energy Products

- ❖ Creation, management and optimisation of energy communities
- ❖ Energy data monitoring and performance improvement
- ❖ Incentive allocation with configurable algorithms
- ❖ Balancing communities through member involvement

ROSE ENERGENIUS EFFICIENCY

- ❖ Reducing energy expenditure by eliminating inefficiencies
- ❖ Analysis, KPIs and control of energy resources
- ❖ Optimal adjustment of systems even remotely

ROSE PREDICTIVE MAINTENANCE

- ❖ Predictive maintenance of electrical installations and networks
- ❖ Detection of anomalies
- ❖ Decision support
- ❖ Machine Learning and Artificial Intelligence for data analysis

With Maps ESG we provide products to **improve the digitalization of corporate data** to extract sustainability value from it:

- Measuring and communicating societal objectives and achievements of **corporations and institutions**
- Managing **employees'** objectives and achievements increasing their empowerment

Future revenue growth is attributed to the **increasing importance of ESG objectives** for Public Administrations and Private Companies, which will require efficient reporting tools

Open Innovation, Bespoke Solutions, and Non-Scalable Products

In Maps Lab we address the needs of typically large and strategic customers through custom solutions:

- Operate with an **Open Innovation** approach
- Using our **Know-how** to answer **leaders** needs
- **Learn by working**, serving best in class clients and research centers

We will continue to work with first tier customers to keep **learning by working** in complex scenarios

Industrial project & long-term sustainability

Product synergies

Recurring revenues from proprietary solutions

Aquisition made in 2022

MAPS ENERGY

ENERGENIUS
SMART ENERGY SOLUTIONS

Total revenue (2021): 1.21 Mln €

- From proprietary solutions: 60%
- From recurrent fees: 10%

Advanced **Energy Data Analysis** and **Optimization** of complex systems

MAPS HEALTHCARE

IL DOMANI È GIÀ QUI.

Total revenue (2021): 2.45 Mln €

- From proprietary solutions: 68%
- From recurrent fees: 63%

Telehealth and **Multichannel Communication**

Multichannel Interactions:

- Chatbot e Voicebot

Focus – Energenius acquisition

Synergies

- A **Single Enterprise Solution** for the **energy efficiency** of **complex aggregates** (i.e. industrial sites and areas, office centers, hospitals, large office buildings, university campuses, ports, utility efficiency systems, and large energy communities)
- Improve energy efficiency of the **Energy Communities**
- **Cross/Up Selling** of Maps Energy solutions (gamification engagement – predictive maintenance) as well as Energenius solutions (GEMs)

Structure of the operations

Tranche 1

Acquisition of **51%** of **Energenius** S.r.l. share capital

- € 842,635.00

Tranche 2

The **acquisition** of the remaining **49%** of Energenius S.r.l. was **completed** in April 2023:

- € 2.400.000 paid in cash
- Other € 600.000 will be paid in cash at the end of the 24th month following the closing.

Focus – I-Tel and Optimist acquisitions

Synergies

- **Completion** of Maps Healthcare's **Patient Experience solutions**, providing new channels of communication
- Technological communication services for the **remote interaction** of doctors and patients, **enabling** the **provision** of **telehealth services**

Structure of the operations

Tranche 1

Acquisition of **70%** of the share capital of **I-TEL S.r.l.**:

- **Cash Transaction:** 49.9% of the shareholder capital for € 2,903,629.80
- **Stock Transaction:** 20.1% of the shareholder capital conferred against Maps Stocks (€5.05 each) for a total amount of € 1,169,600.20

100% Optimist acquisition, totally paid in cash for € 300,000.00

Tranche 2

Call Option for the acquisition of the remaining **30%** of **I-TEL** share capital to be exercised after the approval of the 2024 I-TEL balance sheet
